

CHAMPIONING ONTARIO'S ARCHITECTS

At Pro-Demnity, our cause has always been clear: to support Ontario's architects to take the risks necessary to design a better world, to stand with you as a steadfast ally – championing your wise, efficient and effective management of risk.

Essentially, we:

- **protect** the work you've designed.
- **defend** your professional judgment when it matters most.
- **advance** your practice with clear coverage, practical risk services, and education.

In these pages, you'll see the concrete steps we've taken in 2025 to reinforce the foundation architects rely on: fair and transparent premiums for best-in-class professional liability insurance coverage, expert defense and claims support, and ongoing improvements in your experience with us.

Protect. Defend. Advance. is our promise to continually elevate how we serve you. Across every touchpoint, every program, and every decision – we remain focused on strengthening your ability to practice with confidence in an increasingly complex environment.
